

Certificate

Extension

Report No.: 21200420-2

Manufacturer:

Photowatt International S.A.

33, Rue Saint-Honoré
38300 Bourgoin-Jallieu, France

Product:

PV Modules

Type: **PW6-110**
PW6-123
PW6-230
PW6-55

Basis:

TÜV Spec TZE/2.572.09
"Safety Class II Test on
Photovoltaic (PV) Modules"

Factory Inspection
To document the consistent quality of
the product factory inspections are
performed periodically.

Remarks:

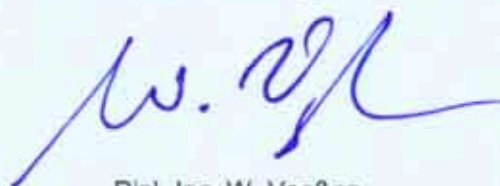

The above mentioned PV modules may be used in PV plants at a total voltage (maximum system voltage) of up to **770 VDC**.
The module types were developed on the basis of the module type PW 1650 (certificate no. 435/122 915-1).
Constructional changes: The only difference is the size and the arrangement of cells.

Conditions:

The product test is voluntarily according to technical regulations. Any change of the design, materials, components or processing may require the repetition of some of the qualification tests in order to retain type approval. The certificate is only valid in conjunction with proof of the suitability of the modules in accordance with IEC 61215 (or similar procedure).

The certificate has a validity of 3 years counting from the date of issue, provided that the testing basis remains unchanged. The series production is not subject to a control and is not part of the assessment.
